Please type/print your responses.

1. Please describe the occupations, training and experience that qualify you for this office.

I was building commissioner for 29 years for Brown County. All four of my children graduated from the Brown County School System.

2. What are your primary concerns for the next four years?

Retaining our teachers and improving our school courses. Bring our reading skills and math scores up.

3. Are there academic areas where you believe our schools could improve or expand their current offerings?

Reading skills and math to ensure our children are prepared. I think life skills would be great.

4. We are rightfully proud of our BC schools. What can/should the School Board do to better advertise and attract families to live here?

Work with the county and town to promote our greatest asset: teachers and children.

5. Do you support expanding the school voucher program? Why or why not?

No. A study needs to be done to see what schools are

6. How do you see the School Board's relationship with the School Corporation and senior management?

We should both work together to improve and retain our teachers and facilities to better serve our children.
